**8**  
ECTS

journey

Create a community of students ready to act as real change makers into the world

**INSPIRED  
FAITHFUL  
GROUNDED**

Sponsored by  Lunt Foundation

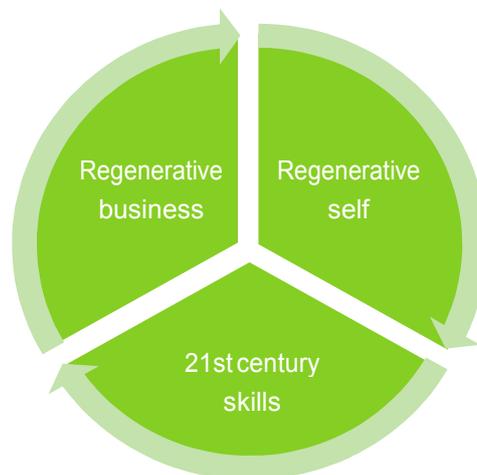

# Regenerative innovation

Sustainability as a goal is not enough anymore. The world is facing new economical, social and environmental challenges that compel us to invent **new ways of doing business** – and maybe mostly – **new ways of being**.

Tomorrow's change makers will only create impact by adopting a regenerative approach to innovation through business and self.

3 weeks Program	
Regenerative business	Regenerative self
Circular, collaborative, local, bioinspired and functional economics with academic experts (PhD) and entrepreneurs	Personal drives and motivations, (re)establish core life values through exercises such as mindfulness meditation or yoga
<b>21<sup>st</sup> century skills defined by the OECD</b>	
creativity & innovation, critical thinking & problem solving, communication & collaboration, leadership & responsibility	

**Program Fee:** Early Bird before January 31<sup>st</sup> 2019, Current International Exchange students at ICHEC, students from Partner universities: 800 Euros

Other students: 950 Euros

Fee includes course materials, company visits, activities, welcome and farewell events.

Accommodation and meals are not included. ICHEC Summer School team will provide you with a list of attractive accommodation options near the campus.
